Ms Mohlala, we will do that.

I do however fail to understand why you meanwhile persist in disseminating incorrect information.

Good Morning Ms Mohlala

Thanks for the response.

I cant find any justification for a “ transition phase “ in the Act or regulations.

Fact is requiring these certificates in terms of the old Act, a “transition phase” or the new Act is simply wrong.

I therefore don't quite understand your response and will appreciate being enlightened.

Dear Mr LeRoux

Please make comments on the licensing guidelines. Therein is the date when the new licensing framework kicks in.

For now we are the transitional phase.

Good Day Ms Mohlala

Please see below and advise ASAP

Natural persons do not require TAX or BEE certificates ... see Regulations 41.19 and 41.20

Fees for interns should be R380 + R400 in the first year . Regulation 15.2.1 does not offer a 3 year option for obvious reasons...see regulation 33.4.5

Hi there

Another example of where a new Agent is requested to provide a BEE certificate. It is not clear whether they want to the business BEE certificate or whether they are expecting the Agent to have one in their personal capacity (not a requirement in terms of the Act).

We would really appreciate any advice and/or feedback you may have in this regard.

Petro-Ann
